BILL NUMBER: SB 482

NOTE PREPARED: Jan 11, 2004

BILL AMENDED:

SUBJECT: Health Care Quality Indicator Data.

FIRST AUTHOR: Sen. Dillon

FIRST SPONSOR:

BILL STATUS: As Introduced

FUNDS AFFECTED: X GENERAL
DEDICATED
FEDERAL

IMPACT: State

Summary of Legislation: This bill requires the State Department of Health to develop and implement a health care quality indicator data program. The bill requires compliance with collection requirements. It also provides for confidentiality of certain information.

Effective Date: July 1, 2004.

Explanation of State Expenditures: This bill requires the State Department of Health to develop and implement a health care quality indicator data program. The bill requires compliance with the data collection requirements defined by the Department with the assistance of health coverage providers and health care providers. The bill further specifies that the Department may only collect existing electronically obtainable data elements. The Department may not require a provider to establish or revise data systems to conform to the Health Care Quality Indicator Data Program. The fiscal impact of the program will depend on legislative and administrative action.

Background: The State Department of Health in Rhode Island has been actively operating a program in Health Care Quality Measurement and reporting for at least 5 years. Resources budgeted for the program have been \$338,000 in FY 2002; \$354,000 in FY 2003; and \$162,000 for FY 2004. In 2003, the Rhode Island program was planning to produce two public reports on hospital patient satisfaction and focused hospital clinical performance; selecting and piloting patient satisfaction survey tools for nursing home residents and home health patients; and testing nurse sensitive quality indicators in hospitals.
